

Workshop For Math Teachers: Aligning Instructions with Online Tools

By Administrator

Monday, 14 September 2015 06:05 -

RALEIGH, (SGRToday.com) - Math teachers in 6th and 7th grade will learn methods to align instruction with online tools at a workshop to be held Sept. 15 in Cullowhee

.

Description:

“Mixing, mashing, collecting, publishing, sharing, mixing, and showcasing...These terms are necessary skills for teachers and classrooms in the digital age. Technology doesn’t replace strong teaching pedagogy, but it can provide the opportunity to align instructional goals with online tools and repositories. However, immediate access to vast amounts digital content and resources leaves many teachers feeling inundated and frustrated. Learn how to use the free tools of Open Educational Resource to help you achieve your inquiry-based instructional goals. Access instructional resources and professional learning materials that will help you align curriculum and help your students focus on the identification, organization, and customization of high-quality content. Curate and author content in practical classroom-ready instructional kits for immediate use.”
