Thursday, 13 May 2021 09:16 -

Governor Roy Cooper today signed an Executive Order declaring a state of emergency in North Carolina and temporarily suspending motor vehicle fuel regulations to ensure adequate fuel supply supplies throughout the state. On May 7, 2021, the Colonial Pipeline system reported a ransomware cyber-attack, resulting in a temporary shutdown of that line. The Colonial Pipeline is a primary fuel pipeline for North Carolina. “Today’s emergency declaration will help North Carolina prepare for any potential motor vehicle fuel supply interruptions across the state and ensure motorists are able to have access to fuel,” said Governor Cooper.
